

5K Schedule for Runners and Walkers

Goal: Finish a 5K race

This schedule is for runners and walkers. If you are an experienced runner or walker, you can add walk or XT training days. Each week, you should run or walk two timed days and one long run day with a day in between. Note the days that you run/walk can be adjusted to fit your needs.

If you are interested in a fat burning option you can add three minutes to all timed run/walks and 10 minutes before and after each long run. The extra time should be run or walked at a slower pace.
